How to replace the front brake disc on Ford Fiesta V

Carry out replacement in the following order:

Replace the brake disks on the car Ford Fiesta V in complete set for each axis. Regardless of the state of components. This will ensure even braking.

1

Tighten the parking brake lever.

2

Place wedge blocks under the rear wheels.

3

Loosen the wheel mounting bolts.

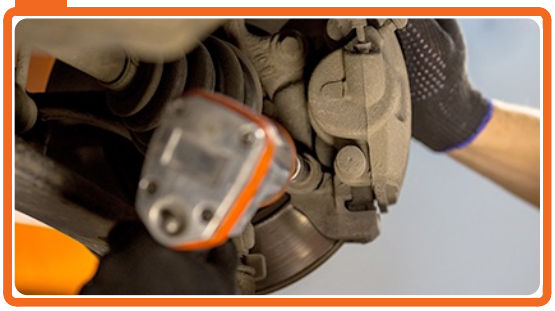
4

Raise the front of the car and secure on supports.

5

Remove the front wheels.

6.1



Unscrew the brake caliper fastening

6.2

7

Remove the brake caliper.

Attach the brake caliper to the suspension or the body by a wire on Ford Fiesta V without disconnecting the brake hose to avoid the brake system leakage.

8

Remove the brake disc.

AutoDoc recommends:

Clean the new brake disc from the protective varnish with a cloth dampened with nitrosolvent.

9

Clean the hub and apply high temperature grease to the seating surface of the disc.

10

Install the brake disc.

11.1

Install the brake caliper and fix it.

11.2

12

Install the wheel.

13

Lower the car and working in a cross order, tighten the wheel bolts.

AutoDoc recommends:

Check the brake fluid level in the expansion tank and refill if necessary.

We hope that this information have been useful for you!
