How to replace the rear brake disc on MERCEDES-BENZ C W203

Carry out replacement in the following order:

Replace the brake disks on the car Mercedes-Benz C-Class W203 in complete set for each axis. Regardless of the state of components. This will ensure even braking.

1

Fully lower the parking brake lever.

2

Place wedge blocks under the front wheels.

3

Loosen the wheel mounting bolts.

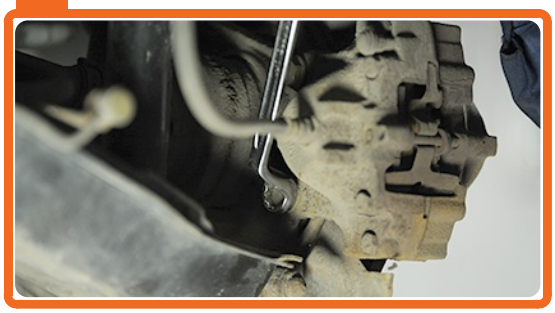
4

Raise the rear of the car and secure on supports.

5

Remove the rear wheels.

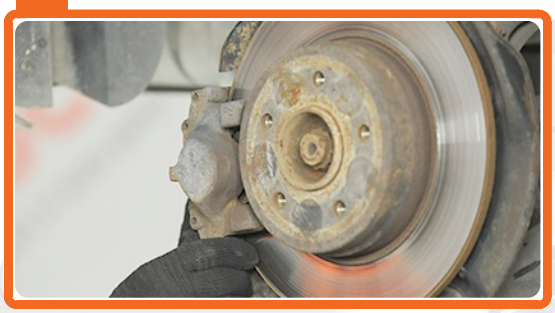
6.1



Unscrew the brake caliper fastening

6.2

7.1



Remove the brake caliper.

7.2

8.1

Unscrew the brake disc mounting bolts and remove it.

8.2

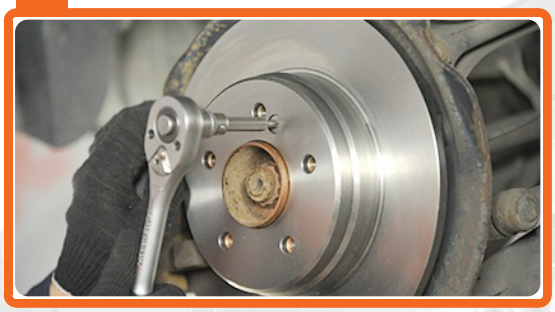
AutoDoc recommends:

Clean the hub and apply high temperature grease to the seating surface of the disc.

9.1

Install the new brake disc on the hub and tighten the screws.

9.2



10.1

Install the brake caliper and fix it.

10.2

10.3

11

Install the wheel.

12

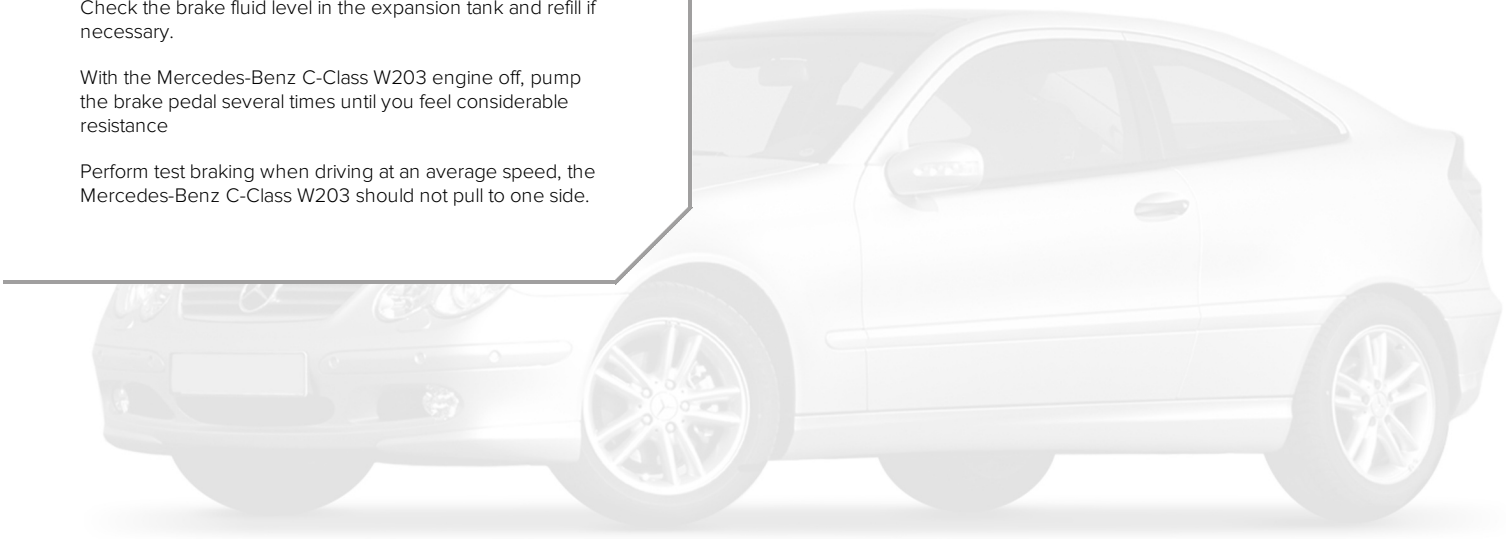
Lower the car and working in a cross order, tighten the wheel bolts.

AutoDoc recommends:

Check the brake fluid level in the expansion tank and refill if necessary.

With the Mercedes-Benz C-Class W203 engine off, pump the brake pedal several times until you feel considerable resistance

Perform test braking when driving at an average speed, the Mercedes-Benz C-Class W203 should not pull to one side.



We hope that this information have been useful for you!
