

VIDEO TUTORIAL

Important!

This replacement procedure can be used for:
AUDI A3 (8L1) 1.8

The steps may slightly vary depending on the car design.

AUTODOC recommends:

- All work should be done with the engine stopped.

CARRY OUT REPLACEMENT IN THE FOLLOWING ORDER:

1

Prepare the new windscreen wipers.

2

Pull the wiper arm away from the glass surface until it stops.

3

Press the clip. Remove the blade from the wiper arm.

AUTODOC recommends:

- When replacing the wiper blade, take caution to prevent the spring-loaded wiper arm from hitting the glass.

4

Install the new wiper blade and carefully press the wiper arm down to the glass.

AUTODOC recommends:

- Don't touch the wiper blade at the working rubber edge to prevent damage to the graphite coating.
- Ensure that the blade rubber strip fits tightly to the glass along the entire length.

5

Switch on the ignition.

6

Pull the windscreen wiper stalk to the downward position.

7

After installation check the wipers performance. The blades shouldn't intersect or bump against the windshield seal.
