This tutorial was created based on the replacement procedure for a similar car part on: MERCEDES-BENZ E-Class Saloon (W210) E 430 (210.070)

REPLACEMENT: CABIN RECIRCULATED AIR FILTER –
MERCEDES-BENZ SLK (R170). TOOLS YOU'LL NEED:

- Phillips screwdriver

[Buy tools](#)

Replacement: cabin recirculated air filter – MERCEDES-BENZ SLK (R170).
AUTODOC experts recommend:

- Follow the terms, recommendations and requirements of the part operation provided by the manufacturer.
- If the air flow into the cabin has sharply reduced, replace the filter before a scheduled maintenance.
- Replace the cabin recirculated air filters as a kit.
- All work should be done with the engine stopped.

REPLACEMENT: CABIN RECIRCULATED AIR FILTER – MERCEDES-BENZ SLK (R170). TAKE THE FOLLOWING STEPS:

1 Move the passenger seat fully backwards.

2 Spread a cloth under the cabin filter cover to protect the interior upholstery from getting dirty.

3

Unscrew the fasteners of the side trim panel on the passenger side. Use a Phillips screwdriver.

4

Pry up, carefully release from the fasteners and remove the side trim panel on the passenger side.

5

Remove the fasteners of the cabin recirculated air filters.

6

Remove the cabin recirculated air filters from the climate control unit housing.

7

Install the cabin recirculated air filters in their mounting seats.

8

Lock the fasteners of the cabin recirculated air filters.

9

Install the side trim panel. Position the part using the guides and lock the fasteners.

10

Screw in the fasteners of the side trim panel. Use a Phillips screwdriver.

AUTODOC recommends:

- Warning! To avoid damaging the fasteners of the car during installation, do not use excessive force. MERCEDES-BENZ SLK (R170)

11

Remove the cloth.

12

Return the passenger seat to its initial position.

13

Switch on the ignition.

14

Switch on the air conditioning system. This is necessary in order to make sure that the component operates properly.

15

Switch off the ignition.

WELL DONE! 👍
