- Universal fuel pump removal tool
- Fluid container
- Fender cover

Buy tools

Replacement: fuel filter – NISSAN Micra C+C III (K12). AUTODOC experts recommend:

- Ensure adequate ventilation of the workplace. Fuel vapors are poisonous.
- All work should be done with the engine stopped.

REPLACEMENT: FUEL FILTER – NISSAN MICRA C+C III (K12). TAKE THE FOLLOWING STEPS:

1 Open the bonnet.

2 Use a fender protection cover to prevent damaging paintwork and plastic parts of the car.

3 Disconnect the earth cable terminal from the battery. Use a drive socket #10. Use a ratchet wrench.

4 Open the fuel door.

5 Unscrew the fuel filler cap.

6 Open the boot lid.

7 Detach the parcel shelf.

8 Remove the lower part of the rear seat.

9 Remove the plastic covers of the rear seat rails. Use a clip removal tool.

10 Unscrew the front fasteners of the rear seat rails. Use a drive socket #17. Use a ratchet wrench.

11 Remove the fastening bolts.

12 Slide the rear seat forward as far as it will go.

13 Remove the plastic covers of the rear seat rails. Use a clip removal tool.

14 Unscrew the rear fasteners of the rear seat rails. Use a drive socket #17. Use a ratchet wrench.

15 Remove the fastening bolts.

16 Lower the rear seat backrest.

17 Move the rear seat rails to the side along with the backrest.

18 Release the retainers on the fuel pump module access cover. Use a Phillips screwdriver.

19 Remove the fuel pump module access cover. Use a clip removal tool.

20 Clean the fuel pump module's mounting seat. Use all-purpose cleaning spray.

21 Detach the fuel pump module connector.

22 Detach the fuel line from the fuel pump module. Use fuel line pliers.

Replacement: fuel filter – NISSAN Micra C+C III (K12). AUTODOC recommends:

- Caution! The line is under pressure. Use safety glasses when disconnecting it.
- Warning: when detaching the fuel line some fuel may leak out.

23

Unscrew the fuel pump module lock nut. Use a universal fuel pump removal tool.

24

Prepare a container for fluids.

25

Take out the fuel pump module.

26 Install a new fuel pump module.

Replacement: fuel filter – NISSAN Micra C+C III (K12). Tip:

- In this case, the fuel filter is built into the fuel pump module and cannot be removed and replaced separately.
- Use only new O-rings during installation.
- If necessary, attach the float arm to the fuel pump module.

27 Install and screw on the fuel pump module lock nut. Use a universal fuel pump removal tool.

28 Clean the fuel line connector. Use all-purpose cleaning spray.

29 Connect the fuel line to the fuel pump module.

30 Attach the fuel pump module connector.

31 Remove any spilt fuel from the fuel tank.

32 Connect the earth cable terminal to the battery. Use a drive socket #10. Use a ratchet wrench.

33 Tighten the fuel filler cap.

34 Close the fuel door.

AUTODOC recommends:

- Before starting off, switch the ignition on and off several times. This should be done to activate the fuel pump to make it pump fuel through the fuel system.

35

Run the engine for a few minutes.

Replacement: fuel filter – NISSAN Micra C+C III (K12). Tip from AUTODOC:

- This is necessary in order to make sure that the component operates properly.

36

Shut off the engine.

AUTODOC recommends:

- Check the fuel line connections for leaks.
- To protect the environment from pollution, be sure to dispose of the used filters at special collection points.

37

Reinstall the fuel pump module cover.

38 Turn the retainers of the fuel pump module cover to lock it in place. Use a Phillips screwdriver.

39 Reinstall the rear seat rails together with the backrest.

40 Install the fastening bolts.

41 Screw in the front fasteners of the rear seat rails. Use a drive socket #17. Use a ratchet wrench.

42 Reinstall the plastic covers of the rear seat rails.

43 Install the fastening bolts.

44 Screw in the rear fasteners of the rear seat rails. Use a drive socket #17. Use a ratchet wrench.

45 Reinstall the plastic covers of the rear seat rails.

46 Raise the rear seat backrest.

47 Reinstall the lower part of the rear seat.

48

Reinstall the parcel shelf.

49

Close the boot lid.

50

Remove the fender protection cover.

51

Close the bonnet.

WELL DONE!
