# How to replace a rear brake caliper on FORD MONDEO III

## Carry out replacement in the following order:

1

Loosen the wheel mounting bolts.

2

Raise the rear of the car and secure on supports.

3

Remove the rear wheels.

4.1

Unscrew the brake caliper fastening

4.2

# How to replace a rear brake caliper on FORD MONDEO III

5

Disconnect the parking brake cable.

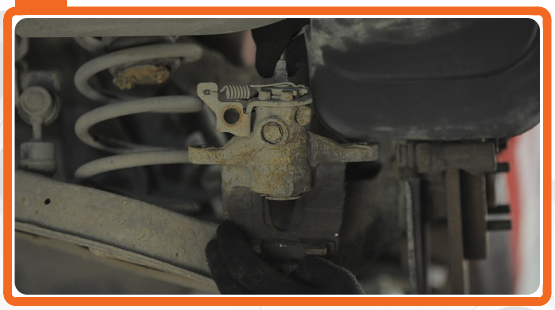
6

Unscrew the brake hose from the brake caliper.

**AutoDoc recommends:**

Immediately plug the brake line open end to prevent fluid leakage and ingress of dirt into the hydraulic system.

7

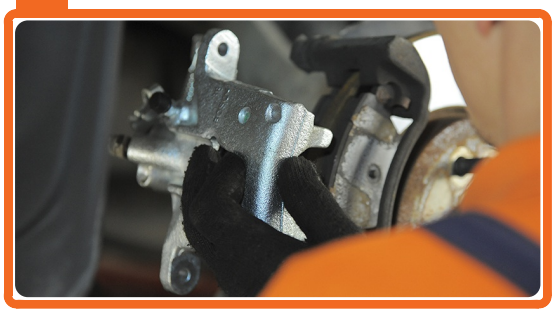


Remove the brake caliper.

8

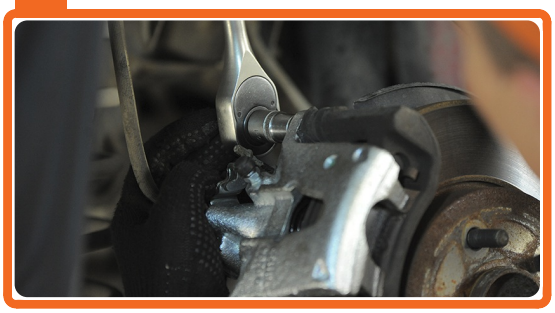
Install and fix the brake hose into a new caliper.

9.1

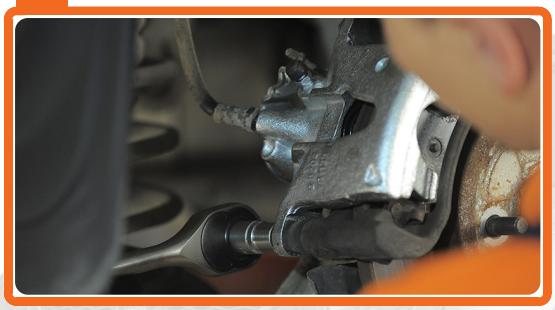


Install the brake caliper and fix it.

9.2



9.3



10

Secure the parking brake cable

11

Bleed the brake caliper system.

**AutoDoc recommends:**

Make sure to set the protection cap on the bleeder valve.

12

Install the wheel.

13

Lower the car and working in a cross order, tighten the wheel bolts.

**AutoDoc recommends:**

Check the brake fluid level in the expansion tank and refill if necessary.

At the start from standstill after replacing the brake calipers on Ford Mondeo III press the brake pedal as far as it can go a few times to adjust its height.

We hope that this information have been useful for you!
